

BS00097 CIP 2

U.S. Application No. 10/801,222 Examiner Gauthier, Art Unit 2614
RCE in Response to December 21, 2006 Final Office Action

AMENDMENTS TO THE CLAIMS

[c01] (Currently Amended) A method of providing communications services, comprising:

allowing a subscriber to select ~~create~~ a text data message from a library of pre-created text messages;

allowing the subscriber to associate the text data message to multiple ~~an~~ originating parties ~~party~~ and to groups of multiple recipients ~~a recipient~~;

receiving a call ~~communication~~ from an ~~the~~ originating party; and

communicating the text data message to a group of multiple recipients ~~the recipient~~ via an Internet Protocol communications network.

[c02] (Previously Presented) A method according to claim 1, wherein receiving the communication comprises receiving a telephone call intended to terminate at a telephone number associated with the subscriber.

[c03] (Previously Presented) A method according to claim 1, wherein receiving the communication comprises receiving an electronic communication addressed to the subscriber.

[c04] (Previously Presented) A method according to claim 1, wherein allowing the subscriber to create the data message comprises allowing the subscriber to create an audio message.

[c05] (Previously Presented) A method according to claim 1, wherein allowing the subscriber to create the data message comprises allowing the subscriber to access a user interface via an Internet Protocol communications network, the user interface prompting the subscriber to create the data message and to associate the data message to a recipient.

BS00097 CIP 2

U.S. Application No. 10/801,222 Examiner Gauthier, Art Unit 2614
RCE in Response to December 21, 2006 Final Office Action

- [c06] (Previously Presented) A method according to claim 1, wherein allowing the subscriber to create the data message comprises allowing the subscriber to specify a time of day that the data message is communicated to the recipient.
- [c07] (Previously Presented) A method according to claim 1, further comprising allowing the subscriber to preview the data message.
- [c08] (Original) A method according to claim 7, further comprising the step of allowing the subscriber to audibly preview the data message.
- [c09] (Previously Presented) A method according to claim 7, further comprising allowing the subscriber to visually preview the data message.
- [c10] (Previously Presented) A method according to claim 1, further comprising allowing the subscriber to attach a computer file to the data message.
- [c11] (Previously Presented) A method according to claim 1, wherein allowing the subscriber to create the data message comprises allowing the subscriber to record audio content.
- [c12] (Previously Presented) A method according to claim 1, wherein allowing the subscriber to create the data message comprises allowing the subscriber to input text.
- [c13] (Previously Presented) A method according to claim 1, further comprising accepting voice commands from the subscriber when creating the data message.
- [c14] (Previously Presented) A method of providing communications services, comprising:
- storing a user interface in memory, the user interface allowing a first party to compose a data message and to associate that data message with a second party and with a third party;

BS00097 CIP 2

U.S. Application No. 10/801,222 Examiner Gauthier, Art Unit 2614
RCE in Response to December 21, 2006 Final Office Action

receiving a communication from the second party; and
communicating the data message to the third party.

- [c15] (Previously Presented) A method according to claim 14, wherein receiving the communication comprises receiving a telephone call intended to terminate at a telephone number associated with the first party.
- [c16] (Previously Presented) A method according to claim 14, wherein receiving the communication comprises receiving an electronic communication addressed to the first party.
- [c17] (Previously Presented) A method according to claim 14, further comprising allowing the first party to preview the data message.
- [c18] (Previously Presented) A method according to claim 14, further comprising allowing the first party to attach a file to the data message.
- [c19] (Previously Presented) A method according to claim 14, further comprising allowing the first party to record audio content for the data message.
- [c20] (Currently Amended) A system operative to, comprising:

store a user interface in memory, the user interface allowing a first party to compose a data message and to associate that data message with a second party and with a third party;

receive a communication from the second party; and
communicate the data message to the third party

~~a Communications Module stored in a memory device, and a processor communicating with the memory device;~~

BS00097 CIP 2

U.S. Application No. 10/801,222 Examiner Gauthier, Art Unit 2614
RCE in Response to December 21, 2006 Final Office Action

~~the Communications Module allowing a first party to compose a data message and to associate that data message with a second party and with a third party, and when a communication from the second party is received, the Communications Module initiates communication of the data message to the third party.~~

[c21] (Currently Amended) A computer program product comprising processor-executable instructions for, comprising:

storing a user interface in memory, the user interface allowing a first party to compose a data message and to associate that data message with a second party and with a third party;

receiving a communication from the second party; and
communicating the data message to the third party

a computer readable medium; and

a Communications Module stored on the computer readable medium, the Communications Module allowing a first party to compose a data message and to associate that data message with a second party and with a third party, and when a communication from the second party is received, the Communications Module initiates communication of the data message to the third party.
